

§ 572.802 Service contracts.

(a) Each conference agreement that regulates or prohibits the use of service contracts shall specify its rules governing the use of service contracts by the conference or by individual members.

(b) Any change in conference provisions regulating or prohibiting the use of service contracts, whether accomplished by a vote of the membership or otherwise, shall not be implemented prior to the filing and effectiveness of an agreement modification reflecting that change.

(c) For the purpose of this section, conference provisions regulating or prohibiting the use of service contracts include, but are not limited to, those which permit or prohibit conference service contracts; permit or prohibit individual service contracts; permit or prohibit independent action on service contracts; permit or prohibit individual members to elect not to participate in conference service contracts; or impose restrictions or conditions under which individual service contracts may be offered.

Subpart I—Penalties

§ 572.901 Failure to file.

Any person operating under an agreement involving activities subject to the Act pursuant to sections 4 and 5(a) of the Act and this part and not exempted pursuant to section 16 of the Act or excluded from filing by the Act, which has not been filed and has not become effective pursuant to the Act and this part is in violation of the Act and of this part and is subject to the civil penalties set forth in section 13(a) of the Act.

§ 572.902 Falsification of reports.

Knowing falsification of any report required by the Act or this part, including knowing falsification of any item in any applicable Information Form or Monitoring Report, is a violation of the rules of this part and is subject to the civil penalties set forth in section 13(a) of the Act and may be

subject to the criminal penalties provided for in 18 U.S.C. 1001.

APPENDIX A TO PART 572—INFORMATION FORM FOR CLASS A/B AGREEMENTS AND INSTRUCTIONS

Instructions

All agreements between ocean common carriers that are Class A/B agreements as defined in 46 CFR 572.502(a) must be accompanied by a completed Information Form for such agreements. A complete response must be supplied to each part of the Form. Where the party answering a particular part is unable to supply a complete response, that party shall provide either estimated data (with an explanation of why precise data are not available) or a detailed statement of reasons for noncompliance and the efforts made to obtain the required information. For purposes of the requirements of this Form, if one of the agreement signatories is a joint service operating under an effective agreement, that signatory shall respond to the Form as a single agreement party. All sources must be identified.

Part I

Part I requires a statement of the full name of the agreement as also provided under 46 CFR 572.403.

PART II

Part II requires a list of all effective agreements (1) that cover all or part of the geographic scope of the filed agreement, (2) whose parties include one or more of the parties to the filed agreement, and (3) that fall within at least one of the following categories: an agreement that authorizes "capacity management" or "capacity regulation" as defined by 46 CFR 572.104(e); a "joint service agreement" as defined by 46 CFR 572.104(o); a "pooling agreement" as defined by 46 CFR 572.104(y); a "rate agreement" as defined by 46 CFR 572.104(bb); a "sailing agreement" as defined by 46 CFR 572.104(cc); an agreement that authorizes regulation or discussion of "service contracts" as defined by 46 CFR 572.104(dd); a "space charter agreement" as defined by 46 CFR 572.104(hh); or an agreement that authorizes discussion or exchange of data on "vessel-operating costs" as defined by 46 CFR 572.104(kk).

Part III(A)

Part III(A) requires a statement as to whether the agreement authorizes the parties to collectively fix rates under a common tariff, to agree upon rates on a non-binding basis, or to discuss rates. Such rate activities may be authorized by a conference agreement, an interconference agreement, an agreement among one or more conferences and one or more non-conference ocean common carriers, an agreement between two or more conference member lines, an agreement between one or more non-conference ocean common carriers, or an agreement among two or more non-conference ocean common carriers.

Part III(B)

Part III(B) requires a statement as to whether the agreement authorizes the parties to establish a joint service.

Part III(C)

Part III(C) requires a statement as to whether the agreement authorizes the parties to pool cargo or revenues.

Part III(D)

Part III(D) requires a statement as to whether the agreement authorizes the parties to discuss or exchange data on vessel-operating costs as defined in 46 CFR 572.104(kk).

Part III(E)

Part III(E) requires a statement as to whether the agreement authorizes the parties to regulate or discuss service contracts.

Part IV

Part IV requires the market shares of all liner operators within the entire geographic scope of the agreement and in each sub-trade within the scope of the agreement, during the most recent calendar quarter for which complete data are available. A joint service shall be treated as a single liner operator, whether it is an agreement line or a non-agreement line. *Sub-trade* is defined as the scope of all liner movements between each U.S. port range within the scope of the agreement and each foreign country within the scope of the agreement. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound market shares should be shown separately.

U.S. port ranges are defined as follows:

Atlantic— Includes ports along the eastern seaboard from the northern boundary of Maine to, but not including, Key West, Florida. Also includes all ports bordering upon the Great Lakes and their connecting waterways as well as all ports in the State of New York on the St. Lawrence River.

Gulf— Includes all ports along the Gulf of Mexico from Key West, Florida, to Brownsville, Texas, inclusive. Also includes all ports in Puerto Rico and the U.S. Virgin Islands.

Pacific— Includes all ports in the States of Alaska, Hawaii, California, Oregon and Washington. Also includes all ports in Guam, American Samoa, Northern Marianas, Johnston Island, Midway Island and Wake Island.

An application may be filed for a waiver of the definition of "sub-trade," under the procedure described in 46 CFR 572.505. In any such application, the burden shall be on the filing carriers to show that their marketing and pricing practices have been done by ascertainable multi-country regions rather than by individual countries or, in the case of the United States, by broader areas than the port ranges defined herein. The carriers must further show that, though operating individually, they were nevertheless applying essentially similar regional practices.

The *formula for calculating market share* in the entire agreement scope or in a sub-trade is as follows:

The total amount of liner cargo carried on each liner operator's liner vessels in the entire agreement scope or in the sub-trade during the most recent calendar quarter for which complete data are available, divided by the total liner movements in the entire agreement scope or in the sub-trade during the same calendar quarter, which quotient is multiplied by 100. The calendar quarter used must be clearly identified. The market shares held by non-agreement lines as well as by agreement lines must be provided, stated separately in the format indicated.

If 50 percent or more of the total liner cargo carried by the agreement lines in the

entire agreement scope or in the sub-trade during the calendar quarter was containerized, only containerized liner movements (measured in TEUs) must be used for determining market share. If 50 percent or more of the total liner cargo carried by the agreement lines was non-containerized, only non-containerized liner movements must be used for determining market share. The unit of measure used in calculating amounts of non-containerized cargo must be specified clearly and applied consistently.

Liner movements is the carriage of liner cargo by liner operators. *Liner cargoes* are cargoes carried on liner vessels in a liner service. A *liner operator* is a vessel-operating common carrier engaged in liner service. *Liner vessels* are those vessels used in a liner service. *Liner service* refers to a definite, advertised schedule of sailings at regular intervals. All these definitions, terms and descriptions apply only for purposes of the Information Form.

Part V

Part V requires, for each agreement member line that served all or any part of the geographic area covered by the agreement during all or any part of the most recent 12-month period for which complete data are available, a statement of each line's total liner cargo carryings within the geographic area, total liner revenues within the geographic area, and average revenue.

If 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the 12-month period was containerized, each agreement member line should report only its total carryings of containerized liner cargo (measured in TEUs) within the geographic area, total revenues generated by its carriage of containerized liner cargo, and average revenue per TEU. Conversely, if 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the 12-month period was non-containerized, each line should report only its total carryings of non-containerized liner cargo (specifying the unit of measurement used), total revenues generated by its carriage of non-containerized liner cargo, and average revenue per unit of measurement.

The Information Form specifies the format in which the information is to be reported. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound data should be stated separately.

Part VI

Part VI requires a list, for each sub-trade within the scope of the agreement, of the top 10 liner commodities (including commodities

not subject to tariff filing) carried by all the agreement member lines during the same 12-month period used in responding to Part V, or a list of the commodities accounting for 50 percent of the total liner cargo carried by all the agreement member lines during the 12-month period, whichever list is longer. If 50 percent or more of the total liner cargo carried by all the agreement member lines in the sub-trade during the 12-month period was containerized, this list should include only containerized commodities. If 50 percent or more of the total liner cargo carried by all the agreement member lines in the sub-trade during the 12-month period was non-containerized, this list should include only non-containerized commodities. Commodities should be identified at the 4-digit level of customarily used commodity coding schedules. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound sub-trades should be stated separately.

Part VII

Part VII requires a statement of the cargo volume and revenue results experienced by each of the parties to the proposed agreement from each major commodity in each subtrade. The Information Form specifies the format in which the information is to be reported.

Part VIII

Part VIII is concerned with the levels of service at each port within the entire geographic scope of the agreement. Each of the agreement lines is required to provide the number of calls it made at each port over the 12-month period used in responding to Parts V, VI and VII, and also to indicate any immediate change it plans to make in the nature or type of service at a particular port after the agreement goes into effect.

Part IX(A)

Part IX(A) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding the Information Form and any information provided therein.

Part IX(B)

Part IX(B) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding a request for additional information or documents.

Part IX(C)

Part IX(C) requires that a representative of the agreement lines sign the Information Form and certify that the information in the Form and all attachments and appendices are, to the best of his or her knowledge, true, correct and complete. The representative is

Agreement Number _____
(Assigned by FMC)

PART I AGREEMENT NAME:

Part II Other Agreements

Lists all effective agreements covering all or part of the geographic scope of this agreement, whose parties include one or more of the parties to this agreement.

Part III Agreement Type

(A) Rate Agreements

Does the agreement authorize the parties to collectively fix rates on a binding basis under a common tariff, or to agree upon rates on a non-binding basis, or to discuss rates?

Yes ☐ No ☐

(B) Joint Service Agreements

Does the agreement authorize the parties to establish a joint service?

Yes ☐ No ☐

(C) Pooling Agreements

Does the agreement authorize the parties to pool cargoes or revenues?

Yes ☐ No ☐

(D) Vessel-Operating Costs

Does the agreement authorize the parties to discuss or exchange data on vessel-operating costs?

Yes ☐ No ☐

(E) Service Contracts

Does the agreement authorize the parties to discuss or agree on service contract terms and conditions, on either a binding or non-binding basis?

Yes ☐ No ☐

Part IV Market Share Information

Provide the market shares of all liner operators within the entire scope of the agreement and within each agreement sub-trade during the most recent calendar quarter for which complete data are available. The information should be provided in the format below:

MARKET SHARE REPORT FOR (INDICATE EITHER ENTIRE AGREEMENT SCOPE, OR SUB-TRADE NAME) TIME PERIOD

	TEUs or other unit of measurement	Percent
Agreement Market Share:		
Line A	X,XXX	XX
Line B	X,XXX	XX

APPENDIX B TO PART 572—INFORMATION FORM FOR CLASS C AGREEMENTS AND INSTRUCTIONS.

Instructions

All agreements between or among ocean common carriers that are Class C agreements as defined in 46 CFR 572.502(b) must be accompanied by a completed Information Form for such agreements. A complete response must be supplied to the Form. Where the filing party is unable to supply a complete response, that party shall provide either estimated data (with an explanation of why precise data are not available) or a detailed statement of reasons for noncompliance and the efforts made to obtain the required information. For purposes of the requirements of this Form, if one of the agreement signatories is a joint service operating under an effective agreement, that signatory shall respond to the Form as a single agreement party. All sources must be identified.

Part I

Part I requires a statement of the full name of the agreement as also provided under 46 CFR 572.403.

PART II

Part II requires a list of all effective agreements that (1) cover all or part of the geographic scope of the filed agreement, (2) whose parties include one or more of the parties to the filed agreement, and (3) that fall within at least one of the following categories: an agreement that authorizes "capacity management" or "capacity regulation" as defined by 46 CFR 572.104(e); a "joint service agreement" as defined by 46 CFR 572.104(o); a "pooling agreement" as defined by 46 CFR 572.104(y); a "rate agreement" as defined by 46 CFR 572.104(bb); a "sailing agreement" as defined by 46 CFR 572.104(cc); an agreement that authorizes regulation or discussion of "service contracts" as defined by 46 CFR 572.104(dd); a "space charter agreement" as defined by 46 CFR 572.104(hh); or an agreement that authorizes discussion or exchange of data on "vessel-operating costs" as defined by 46 CFR 572.104(kk).

Part III

Part III is concerned with the level of service at each port within the entire geographic scope of the agreement. Each agreement line

is required to state the number of calls it made at each port over the most recent 12-month period for which complete data are available, and also to indicate any immediate change it plans to make in the nature or type of service at a particular port after the agreement goes into effect.

Part IV(A)

Part IV(A) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding the Information Form and any information provided therein.

Part IV(B)

Part IV(B) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding a request for additional information or documents.

Part IV(C)

Part IV(C) requires that a representative of the agreement lines sign the Information Form and certify that the information in the Form and all attachments and appendices are, to the best of his or her knowledge, true, correct and complete. The representative is also required to indicate his or her relationship with the parties to the agreement.

APPENDIX C TO PART 572—MONITORING
REPORT FOR CLASS A AGREEMENTS
AND INSTRUCTIONS

Instructions

A complete response must be supplied to each part of the Report. Where the party answering a particular part is unable to supply a complete response, that party shall provide either estimated data (with an explanation of why precise data are not available) or a detailed statement of reasons for noncompliance and the efforts made to obtain the required information. All sources must be identified.

Part I

Part I requires a statement of the full name of the agreement, and the assigned FMC number.

Part II

Part II requires a statement of any change occurring during the calendar quarter to the list of other agreements set forth in Part II of the Information Form.

Part III

Part III requires the filing party to indicate whether the agreement authorizes the parties to operate as a conference.

Part IV

Part IV requires the market shares of all liner operators within the entire geographic scope of the agreement and in each sub-trade within the scope of the agreement during the calendar quarter. A joint service shall be treated as a single liner operator, whether it is an agreement line or a non-agreement line.

Sub-trade is defined as the scope of all liner movements between each U.S. port range within the scope of the agreement and each foreign country within the scope of the agreement. Where the agreement covers both U.S. inbound and outbound line movements, inbound and outbound market shares should be shown separately.

U.S. port ranges are defined as follows:

Atlantic—Includes ports along the eastern seaboard from the northern boundary of Maine to, but not including, Key West, Florida. Also includes all ports bordering upon the Great Lakes and their connecting waterways as well as all ports in the State of New York on the St. Lawrence River.

Gulf—Includes all ports along the Gulf of Mexico from Key West, Florida, to Brownsville, Texas, inclusive. Also includes all ports in Puerto Rico and the U.S. Virgin Islands.

Pacific—Includes all ports in the States of Alaska, Hawaii, California, Oregon and Washington. Also includes all ports in Guam, American Samoa, Northern Marianas, Johnston Island, Midway Island and Wake Island.

An application may be filed for a waiver of the definition of “sub-trade,” under the provisions described in 46 CFR 572.709. In any such application, the burden shall be on the agreement carriers to show that their marketing and pricing practices are done by ascertainable multi-country regions rather than by individual countries or, in the case of the United States, by broader areas than the port ranges defined herein. The Commission will also consider whether the alternate definition of “sub-trade” requested by the waiver application is reasonably consistent with the definition of “sub-trade” applied in

the original Information Form filing for the agreement.

The *formula for calculating market share* in the entire agreement scope or in a sub-trade is as follows:

The total amount of liner cargo carried on each liner operator's liner vessels in the entire agreement scope or in the sub-trade during the calendar quarter, divided by the total liner movements in the entire agreement scope or in the sub-trade during the calendar quarter, which quotient is multiplied by 100. The market shares held by non-agreement lines as well as by agreement lines must be provided, stated separately in the format indicated.

If 50 percent or more of the total liner cargo carried by the agreement lines in the entire agreement scope or in the sub-trade during the calendar quarter was containerized, only containerized liner movements (measured in TEUs) must be used for determining market share. If 50 percent or more of the total liner cargo carried by the agreement lines was non-containerized, only non-containerized liner movements must be used for determining market share. The unit of measure used in calculating amounts of non-containerized cargo must be specified clearly and applied consistently.

Liner movements is the carriage of liner cargo by liner operators. *Liner cargoes* are cargoes carried on liner vessels in a liner service. A *liner operator* is a vessel-operating common carrier engaged in liner service. *Liner vessels* are those vessels used in a liner service. *Liner service* refers to a definite, advertised schedule of sailings at regular intervals. All these definitions, terms and descriptions apply only for purposes of the Monitoring Report.

Part V

Part V requires each agreement member line's total liner cargo carryings within the entire geographic area covered by the agreement during the calendar quarter, each line's total liner revenues within the geographic area during the calendar quarter, and average revenue.

If 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the calendar quarter was containerized, each agreement member line should report only its total carryings of containerized liner cargo (measured in TEUs) during the calendar quarter within the geographic area, total revenues generated by its carriage of containerized liner cargo, and average revenue per TEU. Conversely, if 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the calendar quarter was non-containerized, each agreement member line should report only its total carryings of non-containerized

erized liner cargo during the calendar quarter (specifying the unit of measurement used), total revenues generated by its carriage of noncontainerized liner cargo, and average revenue per unit of measurement.

The Monitoring Report specifies the format in which the information is to be reported. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound data should be stated separately.

Part VI

Part VI requires a list, for each sub-trade within the scope of the agreement, of the top 10 liner commodities (including commodities not subject to tariff filing) carried by all the agreement member lines during the calendar quarter, or a list of the commodities accounting for 50 percent of the total liner cargo carried by all the agreement member lines during the calendar quarter, whichever list is longer. If 50 percent or more of the total liner cargo carried by all the agreement member lines in the sub-trade during the calendar quarter was containerized, this list should include only containerized commodities. If 50 percent or more of the total liner cargo carried by all the agreement member lines in the sub-trade during the calendar quarter was noncontainerized, this list should include only non-containerized commodities. Commodities should be identified at the 4-digit level of customarily used commodity coding schedules. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound sub-trades should be stated separately.

Part VII

Part VII requires a statement of the cargo volume and revenue results experience by each of the agreement lines from each major commodity in each sub-trade during the calendar quarter. The Monitoring Report specifies the format in which the information is to be reported.

Part VIII

Part VIII is required to be completed if Part III is answered "YES." Each conference line is required to indicate the extent to which it has taken independent rate actions on each of the leading commodities in each of the sub-trades. Part VIII also inquires into the type of shipper for whom independent rate actions have been taken. The Monitoring Report specifies the format in which the information is to be reported.

Part IX

Part IX requires each of the agreement lines to indicate any change in the nature or type of service it provided at any port within the entire geographic range of the agreement during the calendar quarter.

Part X(A)

Part X(A) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding the Monitoring Report and any information provided therein.

Part X(B)

Part X(B) requires that a representative of the agreement lines sign the Monitoring Report and certify that the information in the Report and all attachments and appendices are, to the best of his or her knowledge, true, correct and complete. The representative is also required to indicate his or her relationship with the parties to the agreement.

APPENDIX D TO PART 572—MONITORING REPORT FOR CLASS B AGREEMENTS AND INSTRUCTIONS.

Instructions

A complete response must be supplied to each part of the Report. Where the party answering a particular part is unable to supply a complete response, that party shall provide either estimated data (with an explanation of why precise data are not available) or a detailed statement of reasons for noncompliance and the efforts made to obtain the required information. All sources must be identified.

Part I

Part I requires a statement of the full name of the agreement, and the assigned FMC number.

Part II

Part II requires a statement of any change occurring during the calendar quarter to the list of other agreements set forth in Part II of the Information Form.

Part III

Part III requires the market shares of all liner operators within the entire geographic scope of the agreement and in each sub-trade within the scope of the agreement during the calendar quarter. A joint service shall be treated as a single liner operator, whether it

is an agreement line or a non-agreement line.

Sub-trade is defined as the scope of all liner movements between each U.S. port range within the scope of the agreement and each foreign country within the scope of the agreement. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound market shares should be shown separately.

U.S. port ranges are defined as follows:

Atlantic— Includes ports along the eastern seaboard from the northern boundary of Maine to, but not including, Key West, Florida. Also includes all ports bordering upon the Great Lakes and their connecting waterways as well as all ports in the State of New York on the St. Lawrence River.

Gulf— Includes all ports along the Gulf of Mexico from Key West, Florida, to Brownsville, Texas, inclusive. Also includes all ports in Puerto Rico and U.S. Virgin Islands.

Pacific— Includes all ports in the State of Alaska, Hawaii, California, Oregon and Washington. Also includes all ports in Guam, American Samoa, Northern Marianas, Johnston Island, Midway Island and Wake Island.

An application may be filed for a waiver of the definition of “sub-trade,” under the provisions described in 46 CFR 572.709. In any such application, the burden shall be on the agreement carriers to show that their marketing and pricing practices are done by ascertainable multi-country regions rather than by individuals countries or, in the case of the United States, by broader areas than the port ranges defined herein. The Commission will also consider whether the alternate definition of “sub-trade” requested by the waiver application is reasonably consistent with the definition of “sub-trade” applied in the original Information Form filing for the agreement.

The *formula for calculating market share* in the entire agreement scope or in a sub-trade is as follows:

The total amount of liner cargo carried on each liner operator's liner vessels in the entire agreement scope or in the sub-trade during the calendar quarter, divided by the total liner movement in the entire agreement scope or in the sub-trade during the calendar quarter, which quotient is multiplied by 100. The market shares held by non-agreement lines as by agreement lines must be provided, stated separately in the format indicated.

If 50 percent or more of the total liner cargo carried by the agreement lines in the entire agreement scope or in the sub-trade during the calendar quarter was containerized, only containerized liner movements (measured in TEUs) must be used for determining market share. If 50 percent or more of the total liner cargo carried by the agreement lines was non-containerized cargo, only non-containerized liner movements must be

used for determining market share. The unit of measure used in calculating amounts of non-containerized cargo must be specified clearly and applied consistently.

Liner movements is the carriage of liner cargo by liner operators. *Liner cargoes* are cargoes carried on liner vessels in a liner service. A *liner operator* is a vessel-operating common carrier engaged in liner service. *Liner vessels* are those vessels used in a liner service. *Liner service* refers to a definite, advertised schedule of sailings at regular intervals. All these definitions, terms and descriptions apply only for purposes of the Monitoring Report.

Part IV

Part IV requires each agreement member line's total liner cargo carrying within the entire geographic area covered by the agreement during the calendar quarter, each line's total liner revenues within the geographic area during the calendar quarter, and average revenue.

If 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the calendar quarter was containerized, each agreement member line should report only its total carrying of containerized liner cargo (measured in TEUs) during the calendar quarter within the geographic area, total revenues generated by its carriage of containerized liner cargo, and average revenue per TEU. Conversely, if 50 percent or more of the total liner cargo carried by all the agreement member lines in the geographic area covered by the agreement during the calendar quarter was non-containerized, each agreement member line should report only its total carryings of non-containerized liner cargo during the calendar quarter (specifying the unit of measurement used), total revenues generated by its carriage of non-containerized cargo, and average revenue per unit of measurement.

The Monitoring Report specifies the format in which the information is to be reported. Where the agreement covers both U.S. inbound and outbound liner movements, inbound and outbound data should be stated separately.

Part V

Part V requires each of the agreement member lines to indicate any change in the nature or type of service it provided at any port within the entire geographic scope of the agreement during the calendar quarter.

Part VI(A)

Part VI(A) requires the name, title, address, telephone number and cable address, telex or fax number of a person the Commission may contact regarding the Monitoring

Report and any information provided therein.

Part VI(B)

Part VI(B) requires that a representative of the agreement lines sign the Monitoring Report and certify that the information in the Report and all attachments and appendices are, to the best of his or her knowledge, true, correct and complete. The representative is also required to indicate his or her relationship with the parties to the agreement.
